

Live Supervision with Lane Arye, Ph.D.

for advanced students and diplomates of processwork

Berlin, 26 April 2016

This is a great opportunity to deepen your awareness, skills, and metaskills.

We'll focus on:

- identifying process structure so we always know where we are on the map
- allowing our interventions to arise organically from the client's process
- noticing feedback in real time so we know what interventions are working
- discovering our therapeutic style, as well as our growing edge as therapists
- exercising symbolic thinking and creative mind
- flowing over, under, and beyond edges

We'll do all this in a setting that will be relaxed, fun, and also challenging. We will spin the pen to choose people to work in the middle.

Date / Time:

Tuesday April 26, 2016 from 10am to 6 pm
